INTRODUCTION

Dear Valued Partner,

First and foremost, Viettel Construction Joint Stock Corporation (Viettel Construction) would like to extend our most sincere greetings to you.

As a key member of the ecosystem under the Military Industry and Telecommunications Group Viettel, Viettel Construction takes pride in being a leading enterprise in Vietnam in the field of telecommunications infrastructure construction and the provision of comprehensive construction solutions. With a workforce of over 11,000 highly skilled professionals and a quality management system certified to ISO standards, Viettel Construction is committed to delivering optimal, efficient, and sustainable solutions to our valued partners. We have successfully collaborated with hundreds of investors across thousands of projects, including public investment initiatives, private enterprise real estate developments, and projects by foreign direct investment (FDI) companies... spanning nationwide and extending to two countries globally.

Over the past 30 years of accompanying the nation's development, Viettel Construction has confidently established itself as a top-tier construction contractor in Vietnam. Prestigious awards from reputable organizations evidence this, such as the National Brand Award 2024–2026, Vietnam Construction Awards 2024, Champion in Infrastructure and Electrical Construction Development, and Champion in the Top 10 Vietnamese Construction Contractors under the Infrastructure – Industrial category...

Leveraging our extensive experience in executing public investment projects across the country, Viettel Construction offers three key solution groups in the Construction sector and two solution groups in the Energy – Mechanical & Electrical sector, designed to maximize efficiency for our partners:

CONSTRUCTION SECTOR

- 1. Civil Construction:** Schools; Healthcare facilities; Public sector offices (police stations, government offices, etc.)
- 2. Infrastructure Construction:** Industrial zone infrastructure; Transportation and drainage systems; Toll stations, etc.
- 3. Technical Infrastructure Construction:** Underground electrical, telecommunications, and IT systems; Smart infrastructure, etc.

ENERGY – MECHANICAL & ELECTRICAL SECTOR

- 1. Renewable Energy:** Solar power systems, wind power, hydropower, etc.
- 2. Smart Equipment Solutions:** Mechanical & electrical solutions, fire prevention and fighting systems; Solar energy system operations; Smart City solutions, etc.

In the spirit of cooperation and development, Viettel Construction looks forward to the opportunity to collaborate and partner with your esteemed company to provide services and solutions in the fields of civil construction project execution; telecommunications/technical infrastructure investment; and the installation and operation of energy and mechanical & electrical (M&E) systems. We are steadfastly committed to achieving sustainable business outcomes and maximizing value throughout the course of our partnership.

We sincerely appreciate your interest and attention.

Yours faithfully,

VIETTEL CONSTRUCTION JOINT STOCK CORPORATION

★ SECTION 2: ABOUT VIETTEL CONSTRUCTION'S CONSTRUCTION SECTOR

OVERVIEW OF THE CONSTRUCTION SECTOR

1. INTRODUCTION OF CONSTRUCTION SECTOR

Viettel Construction officially entered the **civil construction** race in 2009, leveraging its technical foundation and extensive experience in implementing telecommunications infrastructure projects. **Over 16 years of development**, the company has left its mark with numerous high-quality projects, from urban area construction, warehouse and factories, solar power systems, and infrastructure for business enterprises, public agencies and key transportation infrastructure across the country.

Viettel Construction takes pride in its team of professional technicians, cutting-edge technology expertise, and advanced quality management systems. We are committed to delivering optimal construction solutions that meet the diverse needs of our clients and partners.

Over the course of 16 transformative years, **Viettel Construction** has built reputation as a trusted general contractor, position itself by both "**expertise and vision**". Our mission extends beyond construction - we are shaping a future where our projects enhance lives and set new standards for innovation and quality.

2. OPERATIONAL ORIENTATION

From 2020 to 2025, **Viettel Construction** aims for comprehensive development with the message "**Create a New Life**". The construction sector focuses on highlighting the advantages of projects by emphasizing modernity, sustainability, and environmental friendliness. This strategy is implemented through the following three criteria:

- **Application of High Technology:** Utilizing smart solutions and digital technologies in construction and operation processes to enhance efficiency and quality.
- **Promoting Sustainable Investment:** Collaborating with the authorities and enterprises to develop renewable energy projects, smart cities, green architecture materials and applications.
- **Expanding International Cooperation:** Building on its experience in developing telecommunications networks in five foreign markets, Viettel Construction aims to expand its international presence in the construction field by 2025, asserting its position as a global-standard general contractor from Vietnam.

3. SCOPE OF ACTIVITIES

■ KEY SOLUTIONS:

With extensive experience in implementing projects nationwide, Viettel Construction offers three groups of solutions in the Construction sector and two groups in the Energy – ME sector to maximize efficiency for partners:

CONSTRUCTION SECTOR

Civil Construction: Schools, healthcare facilities, public sector headquarters (police stations, government offices, etc.)

Infrastructure Construction: Industrial zone infrastructure, transportation systems, drainage systems, toll stations, etc.

Technical Infrastructure Construction: Underground electrical systems, telecommunications, IT infrastructure, smart infrastructure, etc.

ENERGY – ME SECTOR

Renewable Energy: Solar power systems, wind power, hydropower, etc.

Smart Equipment Solutions: ME solutions, fire protection systems, solar energy system operations, smart cities, etc.

■ OPERATIONAL SCALE:

As a reputable construction contractor in the market, Viettel Construction has successfully implemented hundreds of civil construction projects, industrial works, and technical infrastructure across the country.

» Northern Region

Red River Delta, Northeast, Northwest: **162 projects**

» Central Region

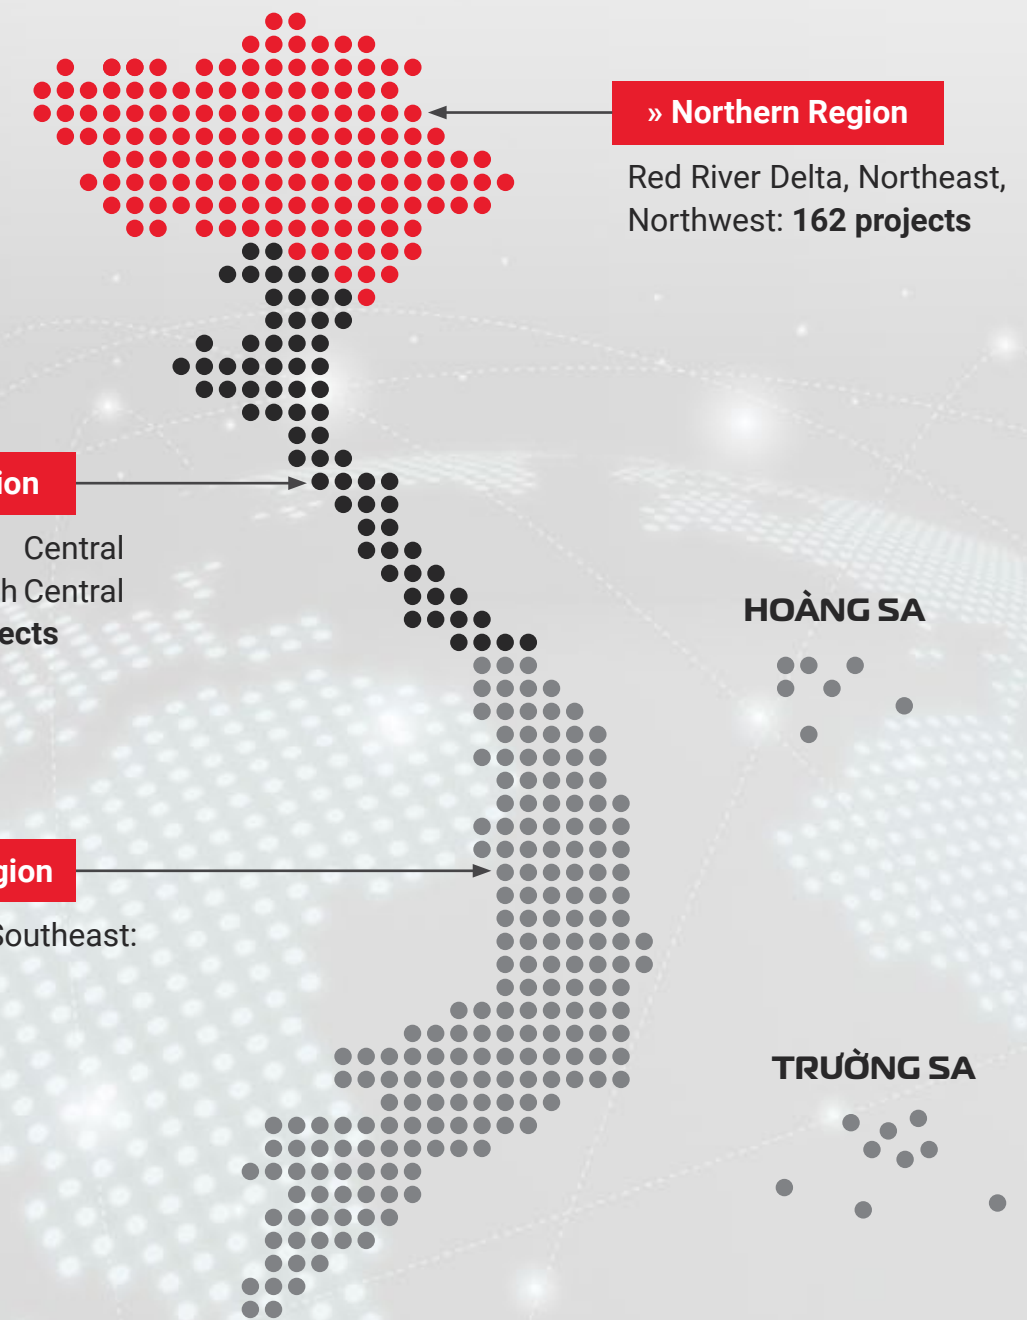

North Central, Central Highlands, South Central Coast: **135 projects**

» Southern Region

Mekong Delta, Southeast: **156 projects**

HOÀNG SA

TRƯỜNG SA

Total value of ongoing contracts: ~1,542 billion VND.

4. ACHIEVEMENTS

Accompanying the corporation's growth, Viettel Construction's construction sector has been recognized through prestigious awards and achievements, affirming its sustainable development direction and commitment to improving modern, civilized social life.

Vietnam Digital Transformation Award 2024: IOC system – Comprehensive business operation solution for civil construction

Top 5 Reputable and High-Quality Contractors in Vietnam 2024 (Vietnam Construction Awards 2024)

Champion in Infrastructure and Electrical Installation Development (Investment Newspaper)

Champion in Top 10 Construction Contractors in Vietnam – Infrastructure and Industrial category (Vietnam Report)

Strong Brand Award: Top 10 Strong Brands – Construction and Building Materials Sector (VnEconomy)

Vietnam Smart City Award 2023 (Vietnam Software and IT Services Association - VINASA)

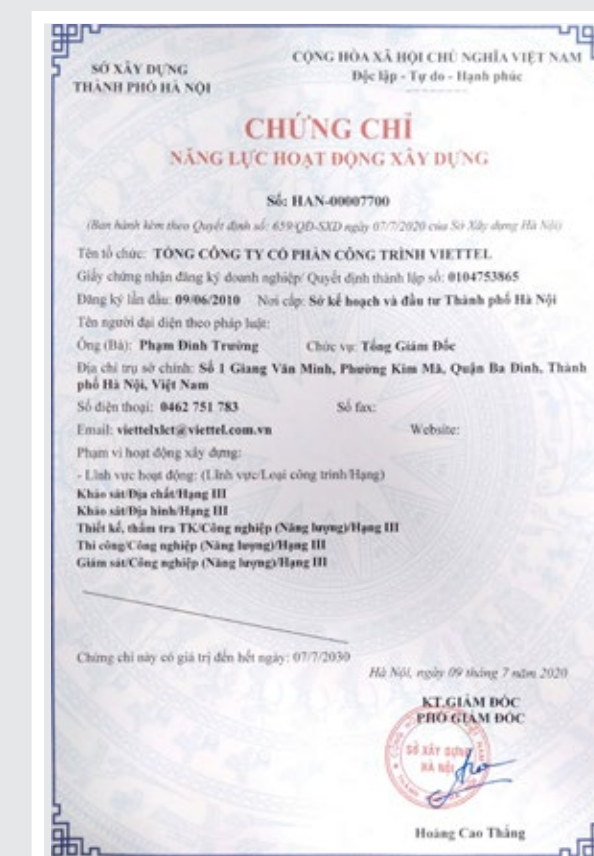

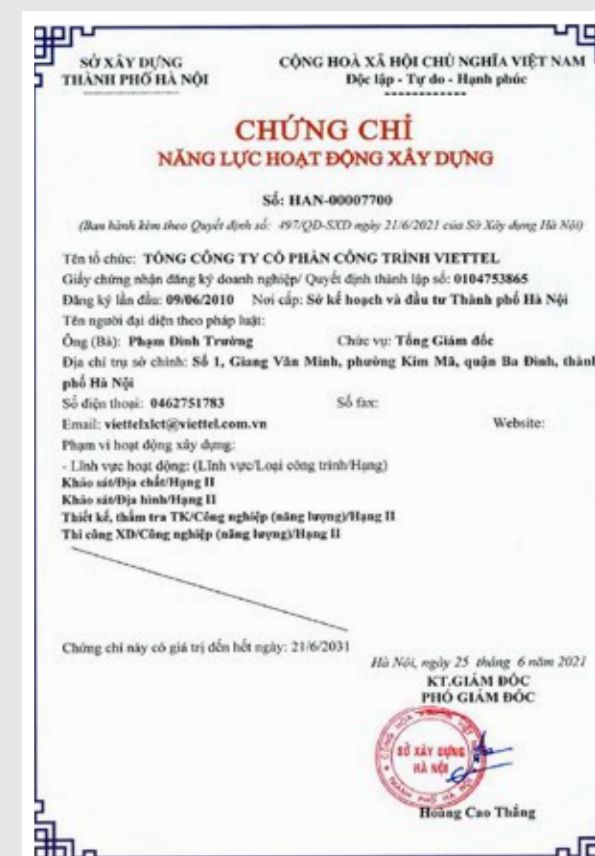

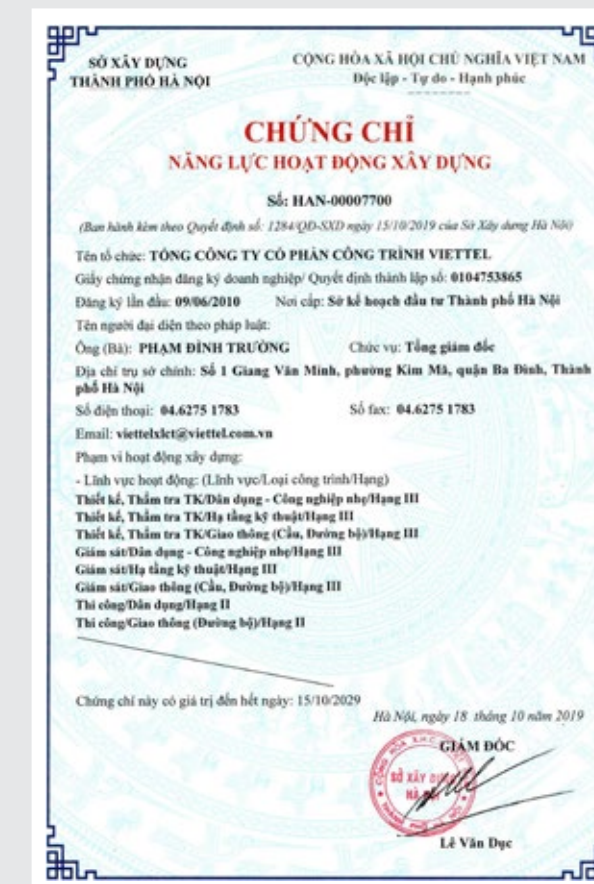

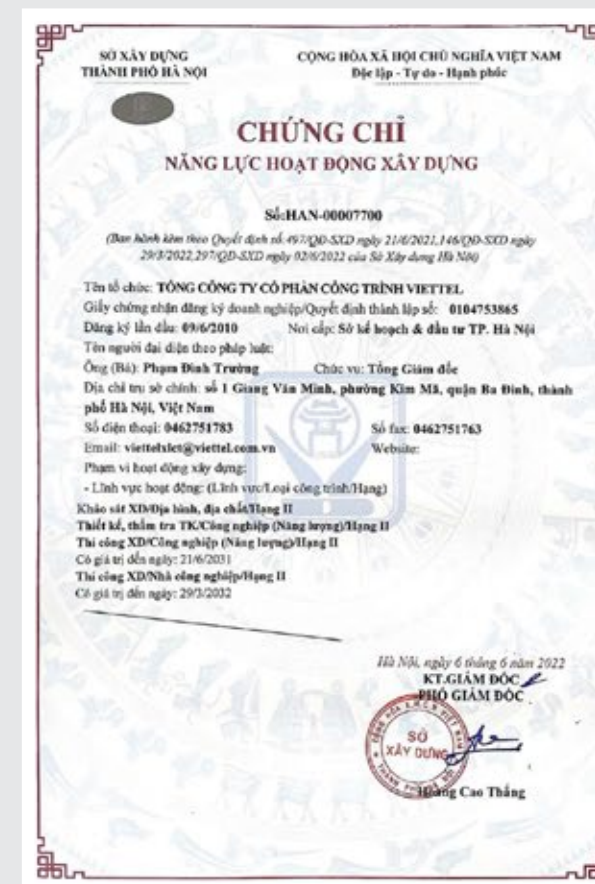

Top 4.0 Industrial Enterprises 2023 (Vietnam Union of Science and Technology Associations)

Digital Transformation Award: Outstanding Digital Transformation Ecosystem Enterprise (Vietnam Digital Communications Association)

CERTIFICATION

5. COLLABORATION BENEFITS

BRANDING:

- ▶ 100% of projects are equipped with signage, warnings, and notifications featuring the branding of both parties.
- ▶ Cross-project media support on Viettel Construction's official channels.

QUALITY AND PROGRESS:

- ▶ Standardized quality management processes and systems across all 63 provinces.
- ▶ 100% of project managers are official Viettel Construction personnel, certified and experienced in implementing numerous projects, trained rigorously before starting new projects.
- ▶ 100% of projects undergo phase-by-phase acceptance, ensuring contractually committed progress.

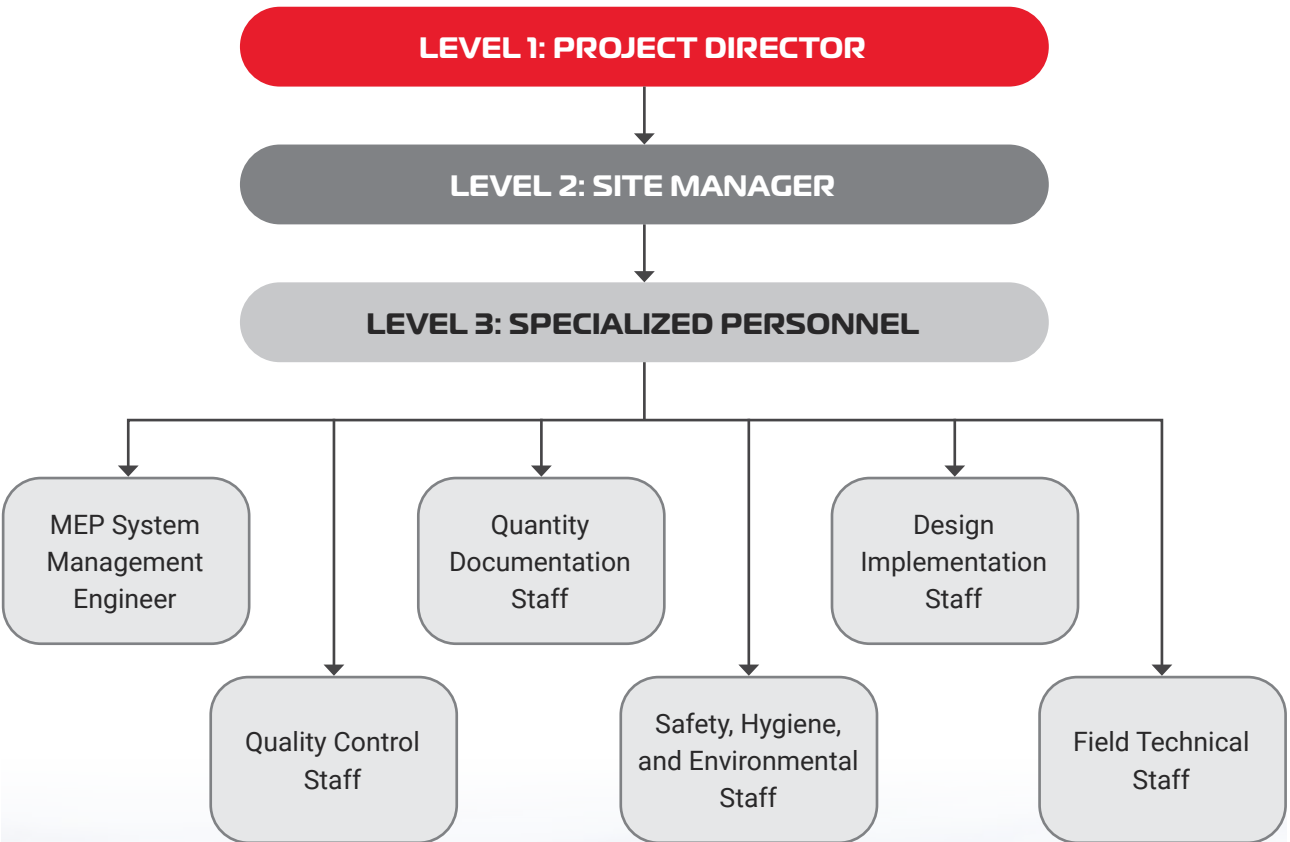

COSTS AND EXPENSES:

- ▶ Competitive pricing policies ensure maximum quality at optimal costs.
- ▶ Commitment to ensuring investment and business profitability for both parties.

CONSTRUCTION IMPLEMENTATION CAPABILITIES

1. HIGH-QUALITY HUMAN RESOURCES

PROJECT MANAGEMENT STRUCTURE

2. TRANSPARENT IMPLEMENTATION PROCESS

At Viettel Construction, all stages of collaboration are conducted transparently and openly, placing the highest emphasis on quality. Therefore, we strictly adhere to the construction deployment process outlined in the following steps:

3. MODERN MANAGEMENT SYSTEMS

■ QUALITY MANAGEMENT SYSTEM:

Viettel Construction adopts internationally recognized quality management standards, such as ISO 9001:2015, ensuring that all projects are executed with consistent and superior quality. The quality management process is rigorously designed, covering every phase from surveying, design, and construction to project acceptance and handover:

INPUT CONTROL

Establish a supplier system that meets the Corporation's regulatory standards. For each project, Viettel Construction develops a checklist to select suppliers that fulfill the highest technical requirements.

PERIODIC INSPECTIONS

In addition to traditional methods involving on-site personnel, Viettel Construction has developed an Integrated Operations Center (IOC) system leveraging technology to continuously monitor and control project quality and progress. Accordingly, all projects are ensured to meet standards through evaluations by both on-site staff and indirect specialized departments at the Corporation.

INTERNAL EVALUATION AND RISK MANAGEMENT SYSTEM

With 16 years of experience in construction, Viettel Construction has established technical standards that strictly comply with legal regulations while minimizing risks for both investors and the implementing entity.

■ PROGRESS MANAGEMENT SYSTEM:

Viettel Construction prioritizes the application of information technology in project progress management to minimize errors and maximize efficiency, utilizing tools such as Microsoft Project in conjunction with internal processes and the IOC software system. Key elements of construction progress management include:

DETAILED ROADMAP DEVELOPMENT

Each project represents a product of intellectual and physical effort. To ensure adherence to the committed timeline with investors, 100% of projects undertaken by Viettel Construction are supported by a specific implementation plan, with clearly defined milestones and transparent timelines.

REAL-TIME MONITORING AND REPORTING

Continuous updates on site conditions are provided through a camera surveillance system and on-site personnel, ensuring accuracy and timeliness. This facilitates transparent and regular information sharing with relevant stakeholders.

RISK MANAGEMENT

Leveraging extensive technical expertise and experience, the responsible team closely monitors all construction phases to promptly identify, address, and mitigate potential risks that could affect project completion timelines.
