GENERAL INTRODUCTION

Viettel Construction Joint Stock Company was established on October 30, 1995, is an important member of the Viettel Military Industry and Telecommunications Group ecosystem.

Viettel Construction has a workforce of over 11,000 highly qualified personnel, along with a quality management system that meets ISO standards, spanning all 63 provinces and cities across the country and two foreign market companies. Viettel Construction is the leading provider of technical services in Vietnam through 5 main strategic business fields:

After 30 years of operation, Viettel Construction has built a telecommunications infrastructure network in Vietnam with over 50,000 base stations and 320,000 km of fiber optic cables (equivalent to 8 times around the Earth), covering 100% of Vietnam's

territory, including coastal islands and remote areas. Additionally, it is also involved in building telecommunications infrastructure in 10 countries across Asia, Africa, and the Americas.

VISION

Become the most effective investor, operator and provider of smart products and services.

MISSIONS

Promote industrial revolution 4.0 to businesses and households.

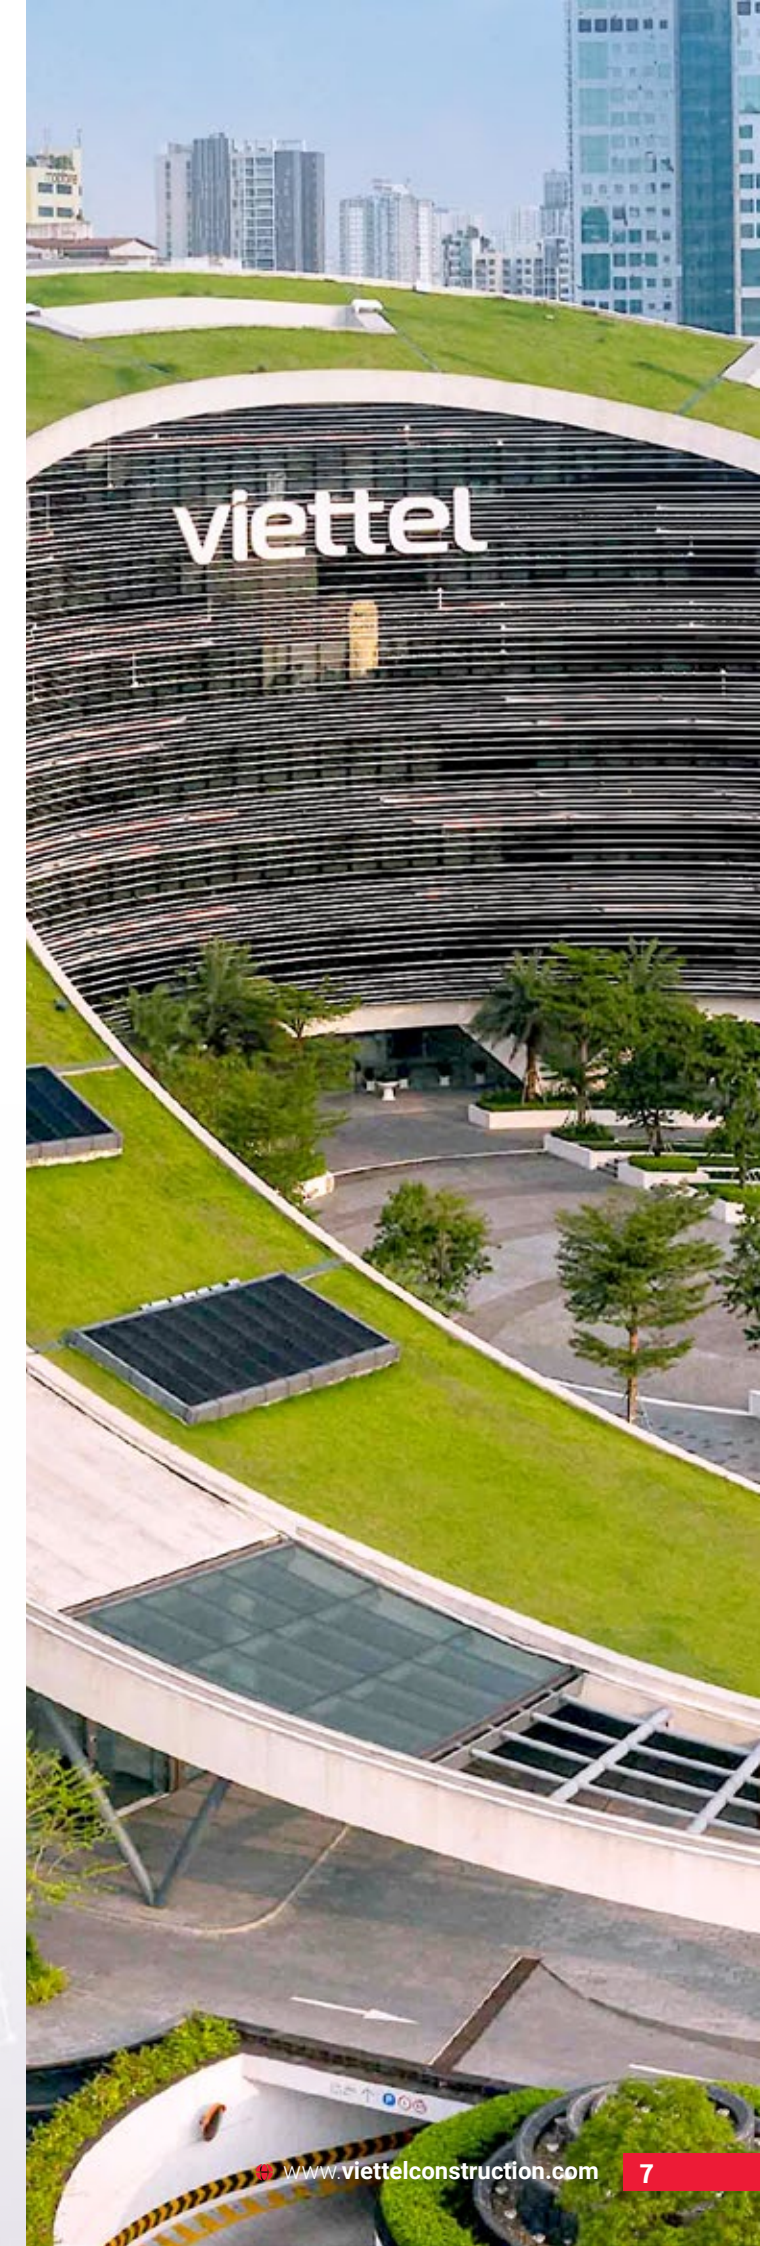

Providing services on the basis of professional techniques, high quality and competitive costs at global scale.

- ▶ **Profession**
- ▶ **High Quality**
- ▶ **Competitive Cost**

VIETTEL CORE VALUES

- 1 Practicality is the standard for testing truth
- 2 Growth comes through challenges and failures
- 3 Quick adaptation is a competitive advantage
- 4 Creativity is the essence of vitality
- 5 Systemic thinking
- 6 Combining Eastern and Western approaches
- 7 Tradition and the soldier's way of doing things
- 8 Viettel is a shared home

KEY MILESTONES

1995 – 2003

- Established the Construction Enterprise responsible for the construction of foundations and the installation of antenna towers domestically and internationally.
- Revenue reached 28 billion VND, accounting for $\frac{2}{3}$ of Viettel Group's revenue.
- Received a Certificate of Merit from the Ministry of National Defense.

2004 – 2009

- Renamed to **Viettel Construction Company**.
- In 2006, transitioned to independent accounting with the new trading name "Viettel One Member Limited Liability Construction Company."
- Completed the construction of over 30,000 BTS stations. In December 2007, began network construction in Cambodia.
- Achieved the title of "Victory Unit" for five consecutive years.
- Awarded the Third Class Labor Medal.

2010 – 2017

- In 2010, focused on building the Viettel 3G network infrastructure, becoming the largest telecom operator in Vietnam.
- On January 15, 2010, transformed into Viettel Construction Joint Stock Company.
- In 2011, organized a workforce for network construction in Haiti.
- In 2014, established three foreign market companies: Cameroon, Burundi, and Tanzania.
- In 2015, received business licenses in Laos and Myanmar.
- Awarded Certificates of Merit from the Ministry of National Defense, the Prime Minister, and the Second Class Medal for National Defense.

2018 – 2020

- Operated across five strategic business pillars.
- Revenue in 2020 reached 6.381 trillion VND ~ 106% of the plan; Profit reached 274 billion VND ~ 136% of the plan.
- Awarded the First Class Medal for National Defense, the Gold Award at the International Business Awards 2020, the People's Choice Stevie Awards 2020, and ranked in VNR500.

2021 – 2025

- In 2022, Viettel Construction officially listed on the HOSE stock exchange while successfully maintaining its position as the number one TowerCo in Vietnam to this day.
- Viettel Construction aims to achieve 16 trillion VND by 2025 and 30 trillion VND by 2030.
- Achieved a maturity rating of 5/5 according to TMForum standards.
- Awarded the title of Labor Hero.

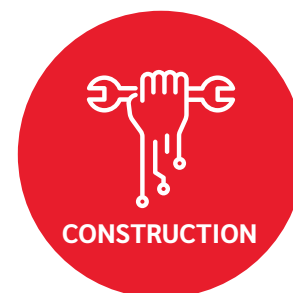

OVERVIEW OF SERVICE ECOSYSTEMS

1. Leasing of BTS tower infrastructure.
2. Leasing of transmission, energy, and IoT infrastructure.
3. In-building coverage for buildings.
4. Construction and installation of telecommunications infrastructure.

1. Construction, building, and completion of B2B project works: urban areas, factories, office headquarters, administrative agencies, schools, etc.
2. Complete house construction and interior finishing for B2C customers.
3. Construction of technical and transportation infrastructure.

1. Installation, operation, and optimization of telecommunications infrastructure.
2. Operation and maintenance of telecommunications infrastructure.

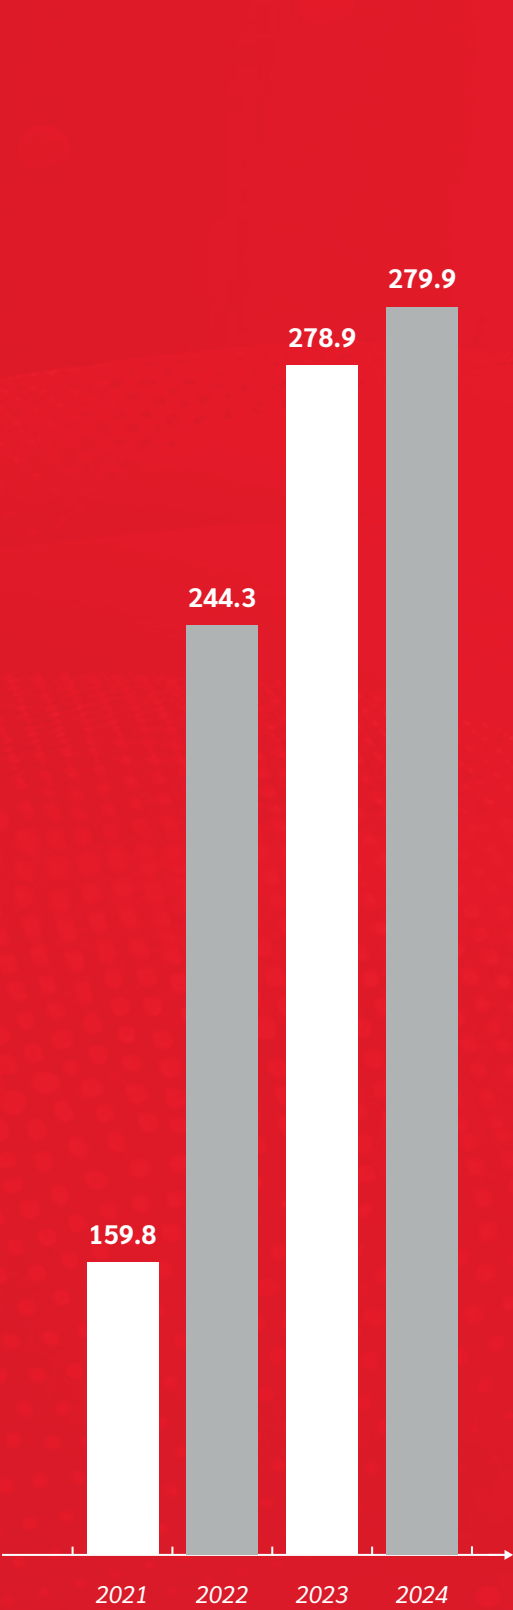

1. Construction, installation, and supply of materials for solar energy, ICT, and electromechanical systems.
2. Construction, installation, and supply of materials for Smarthome and Smart City systems.
3. Provision of electronic devices and household appliances.
4. Operation and maintenance of systems, technical infrastructure, and electrical equipment for households and businesses.

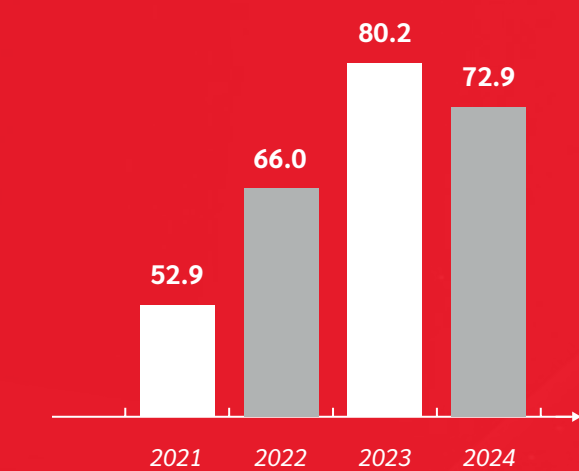

1. Consulting on digital transformation for businesses.
2. Implementation and operation of IT exploitation.
3. Outsourcing services for information technology solutions.
4. Provision of management software and business support for enterprises.

TECHNICAL SOLUTIONS SERVICES

INTEGRATED SOLUTIONS | AIOSMART

Viettel Construction has a mission of **"Create a New Life"** for Vietnamese people to get better and better with many modern experiences. We provide

families with smart device solutions with leading technology products, helping them have more time to enjoy their life.

OUR COMMITMENT:

01 ► INTEGRATED HOME SOLUTIONS AND AIOSMART DEVICES

With the business development motto **"ALL IN ONE - Multi-service, one-touch"**, Viettel Construction distributes a variety of essential household products such as washing machines, refrigerators, televisions, and air conditioners,... from prestigious domestic and international brands (Midea, Electrolux, Daikin, MDV, Carrier, Ariston, Philips, Bluestone, Pentair, Kalite, Rapido, Bear, Gume, Kailie, Kangaroo....).

Sales staff are present in 63 provinces (including staff, distribution agents, and sales collaborators), therefore Viettel Construction can meet the all-consuming needs of Vietnamese families.

Besides, **AIOSMART** is a range of household appliances that have been exclusively developed and manufactured by Viettel Construction. This is the latest product line in the ALL-IN-ONE ecosystem with the criteria of bringing convenience and meeting all the needs in the daily lives of Vietnamese families.

AIOSMART are designed to meet the requirements of modern homes:

- Modern simple design
- Utility products, meeting multi-needs with multi-functions
- High durability, minimum warranty of 2 years

AIOSMART product set includes:

- Double induction cooktop - single induction cooktop
- Pressure cooker - High-frequency rice cooker - stainless steel cooker
- Super-speed electric kettle
- Headlight sets - solar streetlights

02 ► SMART HOME

With modern smart home solutions, customers will be able to control the home remotely (whether at work, traveling, ...) through an internet-connected smartphone. That helps the house owners reduce the number of normal actions, and improve quality and experience of life.

- Control lighting, air conditioning, water heater, and electrical equipment from anywhere.

- Lock and open the door automatically.
- Save money on your monthly electricity bill.
- Control and monitor security systems.
- Voice communication with the devices.
- Help keep the connection with the family.
- Enjoy a smart, classy life.

03 ► ICT

A 24/7 comprehensive system of wireless and local security solutions using modern technologies.

1. Connected equipment (wifi)

The wifi system solution covers every corner of the apartments/houses and accesses the internet in a snap.

2. Technology equipment

System of products supporting data storage such as HDD, memory card,...

04 ► M&E

Viettel Construction supplies, constructs and installs electromechanical equipment and solutions, with leading brands in the world such as: Daikin, Samsung, Panasonic, Electrolux, Sanyo, Toshiba... we create spaces. home, comfortable and safe work.

- Air-conditioning solutions.
- Water purification solutions.
- Solutions for light electricity, heavy power and lighting.
- Water supply and drainage solutions.
- Elevators.

THE ADVANTAGES

05 ► ELEVATOR

Viettel Construction provides elevator solutions including: surveying, consulting, designing, installing, and comprehensive warranty and maintenance services. The joint venture elevator products will be imported from countries such as South Korea, Japan, Germany, and Italy.

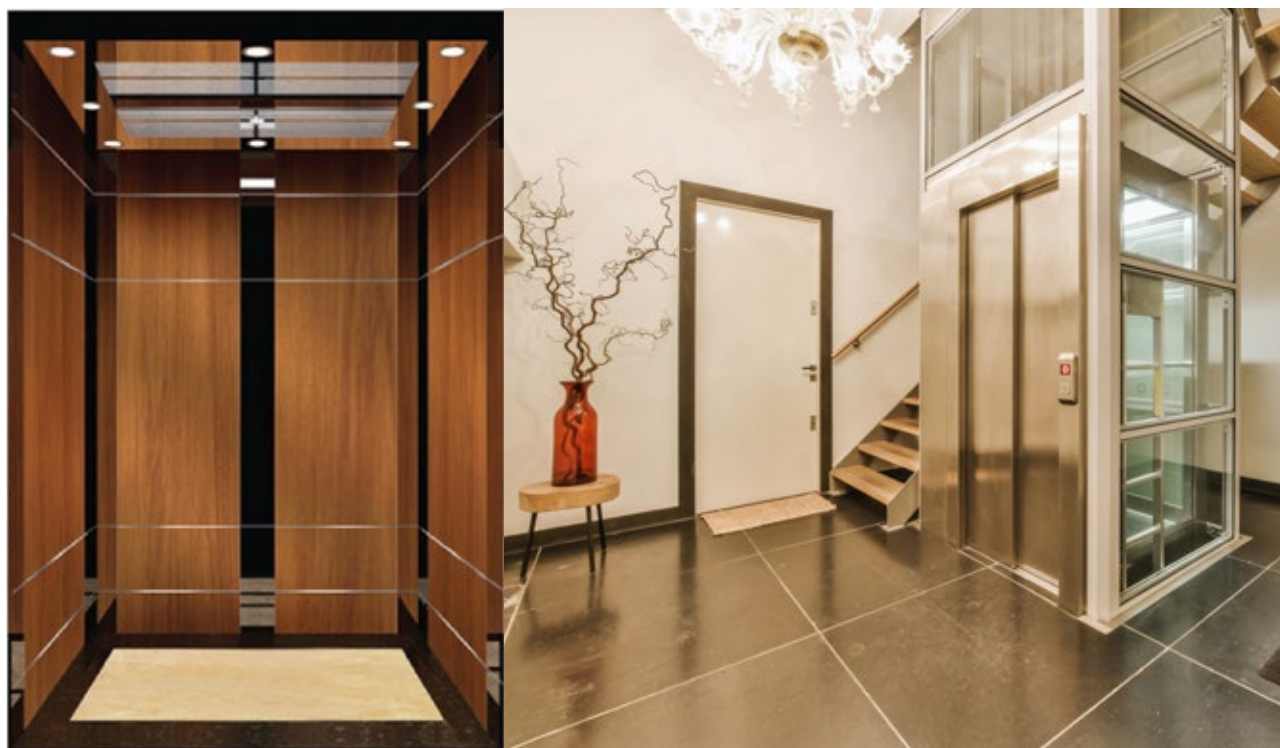

ADVANTAGES:

Free consultation for elevator installation solutions

A network of technicians and engineers across all 63 provinces nationwide

Genuine imported equipment

Free warranty and maintenance for 2 years

06 ► SOLAR POWER

Solar power solutions using natural light will help households save electricity costs, minimize national electricity overload, protect the environment and be a profitable source of investment for households when selling electricity to EVN.

Average cut 50-100% of electricity cost/month.

Payback only after 4-5 years.

Reduce greenhouse gas and CO₂ emissions, water and noise pollution.

Investment and profit value from solar power system up to 25 years.

CHOOSE VIETTEL CONSTRUCTION - HAVE A RELIABLE PARTNER

02 ► SMART HOME

Viettel Construction Smarthome solutions bring you products, services, and unique smart technology solution packages to make your workspace smart and convenient.

2.1. SMART HOTEL SOLUTIONS

Smart hotel solutions are applied to help control hotel operations at all times, anywhere and ensure the quality of services that are always up to standard.

- Smart lighting control.
- Automatic curtain control.
- Smart ventilation and air conditioner control to save electricity.
- Integrated housekeeping and do-not-disturb functions.
- Connect with the hotel management system: Transparent financial management.

2.2. BUILDING MANAGEMENT SOLUTIONS

BUILDING LIGHTING SYSTEMS

- Building lighting solutions.
- Corridor lighting solutions.
- Warning lighting solutions.

IPARKING SYSTEM AND PGS

- Control the in and out flows of vehicles with the chip card system.
- Identify number plates, monitor by camera system,...
- NetPos multipurpose card solution.
- CCTV.
- Traffic monitoring.
- Face Recognition.
- Software design.
- ELV light electrical system.
- Parking guidance system PGS – vacant basement parking slot notice.

2.3. FACTORY AUTOMATION SOLUTIONS

The development of 4.0 technology and artificial intelligence has had a strong impact on businesses in production automation. Changing the production platform to automation and towards smart

automation is important for businesses. Therefore, Viettel Construction offers business automation solutions that are suitable for factories with optimal cost efficiency and application.

03 ► ICT

► Connected devices (wifi):

- Wifi marketing solution for resorts, hotels, cafes.
- Solution for enterprise LAN, WAN server.
- Network system solutions for hospitals, schools.
- Network system solutions for factories,...

► Surveillance equipment (camera):

- Smart city surveillance camera solution, multi-layer security surveillance and centralized surveillance at the central operating room for the stores/shops.
- School security solutions.
- Supermarket security solution.
- Monitoring solutions for restaurants,...

► Applications and softwares (network sharing device, timekeeping device, face recognition monitoring device):

- Video Conference Solution.
- Unauthorized timekeeping prevention solutions.
- Face recognition and analysis solution using AI.
- Solution for IPTV.

- **Technology equipment:** a system of products supporting data storage such as HDD, memory card,...

04 ► M&E

Viettel Construction supplies electromechanical solutions and installs equipment with leading electronic brands in the world such as: Daikin, Samsung, Panasonic, Electrolux, Sanyo, Toshiba ... we create comfortable safe home and work spaces.

- Air conditioning and ventilation solutions
- Water Purifier Solutions
- Solutions for light electricity, heavy power, lighting power
- Water supply and drainage solutions
- Server room infrastructure solutions
- Elevator

TECHNICAL SERVICES

01 ► HOME SERVICES

Service maintenance, repair, installation and maintenance of refrigeration equipment, civil electricity for businesses.

Is a service package for equipment maintenance and repair for businesses. From simple electrical systems to complex problems such as air conditioning systems, electricity and water, electronics,... Ensure stable operation, optimum productivity and cost savings for businesses.

BENEFITS OF THE SERVICE FOR BUSINESSES:

- Increase equipment life and durability
- Increased operating efficiency
- Energy saving
- Ensure user safety

02 ► SOLAR SERVICES

OPERATION, MONITORING AND MAINTENANCE OF SOLAR ENERGY SYSTEM

To increase the efficiency of solar panel production, we provide a comprehensive solar system care service for businesses.

SOLAR SERVICES SERVICE PACKAGES INCLUDE:

- Clean the battery panel
- Monitoring system
- Check, maintain and optimize the system
- Troubleshooting, repairing and replacing equipment and supplies
- Inverter rental

BENEFITS OF THE SERVICE FOR BUSINESSES:

- Save management and operating costs
- Prevention of fire and explosion, minimizing risks
- Collect solar energy efficiency and productivity

03 ► OPERATION SERVICES

Operation Services – Service of installation, maintenance, optimization of operation, troubleshooting of fixed broadband systems and mobile systems, transmission for businesses and governments, ensuring stable operation of the system. , optimizing profits for customers is what the Viettel Construction team is aiming for.

OPERATION OF OPTICAL CABLE

1	Response to fiber optic communication
2	Maintenance, repair and consolidation of transmission network infrastructure

STATION OPERATION

I	Maintenance of telecommunications stations
1	Response to fiber optic communication
2	Maintenance, repair and consolidation of transmission network infrastructure
II	Operation and periodic maintenance of air conditioners and generators
1	Maintenance of the indoor unit
2	Outdoor unit maintenance
3	Check and maintain the compressor and gas circuit
4	Check and maintain the electrical system
5	Generator maintenance

NETWORK OPERATION

Viettel Construction is currently implementing the installation, maintenance, operation, optimization, troubleshooting of fixed broadband and mobile systems, transmission for individual customers, businesses and governments.

Currently, Viettel Construction operates Viettel's access network in 63 provinces/cities nationwide and 26 provinces/cities in Cambodia (Unitel), Myanmar (Mytel). In addition, Viettel Construction is also operating the fiber optic network for the Ministry of Public Security, CMC, and Base Transceiver Stations for NTD (Myanmar) and promoting operations for other partners (both domestic and overseas).

SOLUTIONS PROVIDED:

TELECOMMUNICATION INFRASTRUCTURE OPERATION SERVICES

1

► Maintenance and installation of BTS and transmissions system.

2

► Operating IT telecommunication system.

3

► Optimizing the IT systems and networks.

4

► Production and sale of electronic and telecommunications equipment, and components.

5

► IT system, smart infrastructure, and building management and operation.

INFRASTRUCTURE INVESTMENT FOR LEASE

As a member of Viettel Construction, the centre ensures business efficiency and profits by managing and implementing the investment in telecom, IT and energy infrastructures. The centre's main business include investing and leasing infrastructure. We focus on acquiring, consolidating and providing services to:

- ▶ Telecommunication companies.
- ▶ Enterprises those invest in renewable energy.
- ▶ Governmental and local agencies operating public and social services.

TELECOM INFRASTRUCTURE FOR LEASE

- ▶ Invest in leasing and acquiring infrastructure of telecommunications stations.
- ▶ Invest in leasing backup power for substations/master stations.
- ▶ Invest in leasing underground cables and hanging lights.
- ▶ Invest in leasing equipment to cover inbuilding buildings (DAS).

ENERGY INFRASTRUCTURE FOR LEASE

- ▶ Leasing solar energy infrastructure on the roof for buildings, businesses, warehouses.
- ▶ Leasing solar infrastructure for telecommunications stations/total stations.
- ▶ Leasing infrastructure for rent.

TECHNOLOGY INFRASTRUCTURE FOR LEASE

- ▶ Leasing IOT smart technology infrastructure for government agencies (surveillance cameras, outdoor wifi,...).

INFORMATION TECHNOLOGY

With a team of experts who have many years of experience and outstanding achievements in the field of Information Technology, Viettel Construction confidently accompanies with businesses on the challenging digital transformation journey. With the message: **"Actively transforming, innovating to make a breakthrough"**, Viettel Construction would like to create a digital ecosystem - a place to actualise the aspirations of businesses. We have been researching and creating new technology solutions, optimizing all business activities and costs such

as: IT operation package for businesses; Customer Relationship Management software; Financial and Accounting Management Software, Warehouse and Asset Management Software, Payroll Software,...

01 ► CONSULTING AND IMPLEMENTING DIGITAL TRANSFORMATION FOR BUSINESSES

Digital transformation offers the opportunity to open up a new business model on a digital platform towards the goal of supporting enterprises to have outstanding development in the era of Technology 4.0. We provide the following digital transformation services:

- Review and assess the current digital maturity of an enterprise.

- Setting up Digital Strategy - Digital Culture.
- Consulting, building equipment infrastructure and connection.
- Consulting, building operation procedures, KPI.
- Consulting, building data infrastructure.
- Consulting, building applications.

02 ► DEPLOYMENT IT INFRASTRUCTURE SERVICES

With 28 years of experience in deploying, operating telecommunication and information technology systems inside and outside the Viettel Group, we provide:

Consulting and deploying IT infrastructure for businesses

Business IT operation package

Maintaining stability, consolidating all activities to help businesses optimize costs of human resources, printed documents, ... at the same time, simplify and save time for all work processes. This is one of the important factors determining the survival of an enterprise.

03 ► ENTERPRISE MANAGEMENT SOFTWARE SOLUTIONS (ERP)

ERP software (Enterprise Resource Planning) or commonly understood as Enterprise Resource Planning System is the means and tool to support enterprises in management, evaluation and operation of activities, projects, personnel and resources:

- Financial and accounting management
- Asset warehouse management
- Payroll management
- Vehicle management
- Building corporate internal communication website

04 ► NHÓM GIẢI PHÁP PHẦN MỀM HỖ TRỢ KINH DOANH

The service is designed to solve all the "weak points" of businesses such as dispersed information, time and cost waste due to inappropriate manual processes that helps businesses quickly "integrate" in the period of digital transformation and make a breakthrough.

- Business management solutions for civil construction
- Project management software for the fields of construction, installation, and telecommunications
- Operational software for managing telecommunications, IT, IoT, and solar energy systems
- Unified AIO-Omnichannel multi-channel sales management software
- In-depth customer and market management software solution: Customer Market Insight
- E-commerce website/mobile app solutions
- Business Intelligence software solutions
- Cost-saving AI/RPA solutions that increase labor productivity: AI Agent, AI Assistant, AI OCR/TTS...

CHAPTER 4: SUSTAINABLE DEVELOPMENT

Sustainable Vision	74
Sustainable Workforce Development	74
Business For Society	75
Corporate Social Responsibility	76
Risk Appetite	78

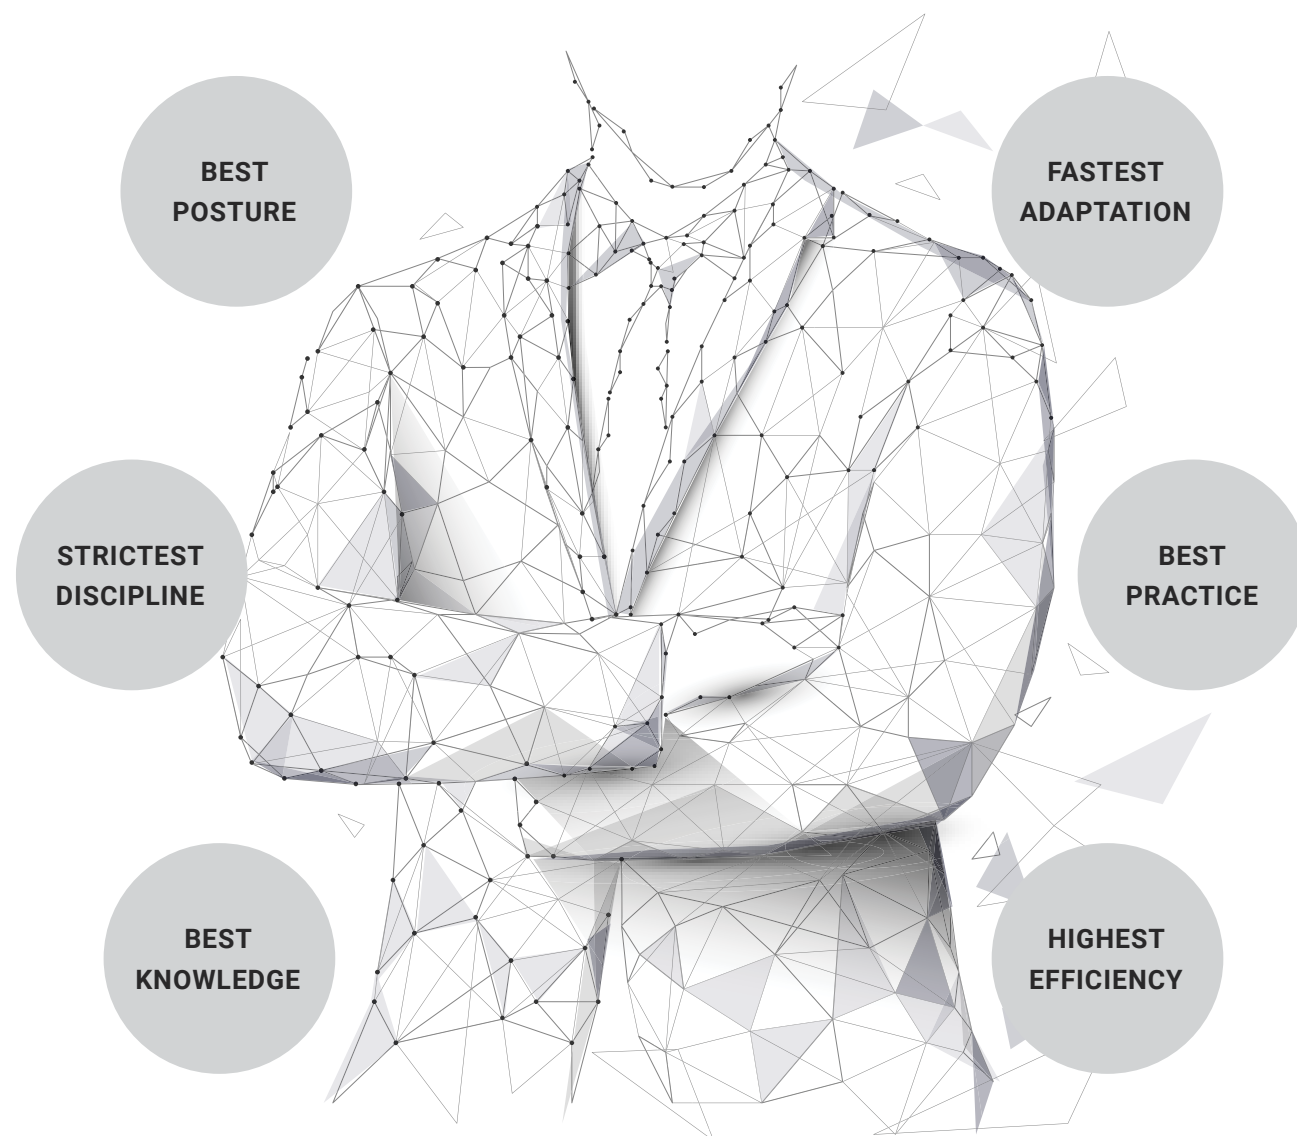

SUSTAINABLE VISION

Green transformation, green growth, and green development are inseparable factors in the development process. Viettel Construction identifies that a sustainable enterprise must successfully combine financial performance with positive contributions to society, such as creating jobs, contributing to social stability, and protecting the environment.

Viettel Construction is committed to bringing the best quality products and services closer to people across the country and around the world, viewing this as a noble responsibility in the new era. Building a better life for each household and providing optimal solutions to every business, thereby creating prosperous values for society. This is also the long-term vision that Viettel Construction pursues, aiming to achieve 1 billion USD by 2030, moving towards a path of happiness and sustainability in the future.

SUSTAINABLE WORKFORCE DEVELOPMENT

Focusing on the central factor of human resources, Viettel Construction takes care on each individual employee as the core in the process of building a growing business, as typical brand ambassadors in contact with customers and satisfying the following factors:

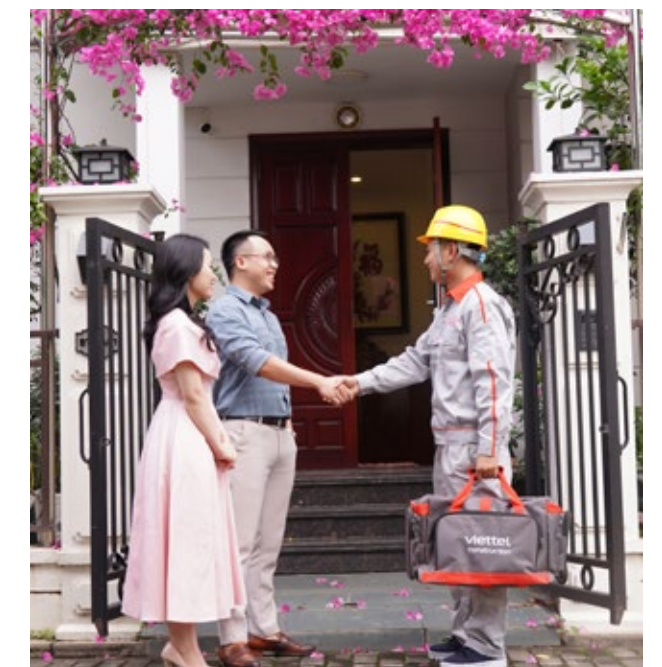

BUSINESS FOR SOCIETY

After completing well the country's duty to build telecommunications network infrastructure, Viettel Construction has continued to expand its business on the basis of engineering, applying science and technology to improve the quality of life in society.

In addition, Viettel Construction is currently promoting the activities of **"Greening Vietnamese roofs"** with a system of energy solutions such as rooftop solar power, solar lights, and wind power. With the goal of making best use of the endowed natural resources, minimizing the overload of the national electricity system and protecting the environment.

An enclosed Viettel Construction ecosystem is made of all solutions from design consultancy, construction, completion, installation of home equipment system to current solutions for businesses. All are for the purpose of helping improve the life quality of Vietnamese people day by day.

CORPORATE SOCIAL RESPONSIBILITY

Beyond pioneering products and services that reshape lives across the nation, Viettel Construction embraces the 3P philosophy – People, Planet, and Profit – as the guiding star for its meaningful social endeavors: supporting colleagues, assisting disadvantaged children, implementing charitable projects in remote areas, building houses of gratitude, and renovating social works...

Through 4 main funds:

- FUNDS Children Protection Fund:**
- 1**
- ▶ Support treatment costs for children with serious diseases and people in difficult circumstances.
 - ▶ Grant scholarships, study equipment, build kindergartens and play grounds for children in mountainous, ethnic minority and remote areas.
 - ▶ Subsidy for living in areas hit by natural disasters, floods and epidemics.

- FUNDS Poverty Protection Fund:**
- 2**
- ▶ Supporting the poor to overcome difficulties to escape poverty, aiming to reduce poverty sustainably with the country.

- FUNDS The Gratitude Fund:**
- 3**
- ▶ Viettel Construction supports the construction and renovation of houses, and visits individuals who have made contributions to the revolution or their families
 - ▶ Renovates cemeteries and monuments, builds memorial steles inscribed with the names of martyrs.

- FUNDS Labour Union Fund:**
- 4**
- ▶ Support and reward members with outstanding achievements in their work or in difficult circumstances in life.
 - ▶ Support people in areas affected by rain, floods, and natural disasters.

RISK APPETITE

- 1** Do not accept risks that negatively affect national defense, the environment, and society.
- 2** Do not accept risks that could significantly damage the reputation and brand of the Corporation and the Group.
- 3** Always strive to improve the quality of products and services, conduct transparent business, and ensure customer satisfaction and loyalty worldwide.
- 4** Do not provide products or services to individuals under the age of 16.
- 5** Minimize disruptions to business operations, especially with essential products and services.

- 6** Do not accept risks related to cybersecurity that could lead to leaks of state secrets, loss of customer information, or damage to the reputation of the Corporation and the Group.
- 7** Commit to complying with environmental laws currently in effect in Vietnam and in the countries and territories where the Group operates.
- 8** Proactively assess and manage environmental risks to prevent and mitigate impacts on the environment.
- 9** The Group is committed to adhering to the laws of Vietnam and those of the countries and territories within the scope of its operations.
